

# Get the news, first.

With observ, you don't have to track all city council agendas for updates on your beat. You tell us what you need, and we deliver the information where you want it, when you want it.

# This is observ.

Local journalists need to do more work, with less people, and fewer time. We want to help. That's why we created a tool that will help journalists on multiple beats and with multiple cities to cover to get the information they need, as soon as possible.

Local journalists need to do more work, with less people, and fewer time. We want to help. That's why we created a tool that will help journalists on multiple beats and with multiple cities to cover to get the information they need, as soon as possible.

## how it works

Insert your keyword, the cities you want to track and how often you want to hear from us, and we'll do the rest. With our standard subscription, you can create up to 3 requests at the same time.
